

Build your own indoors den

What you'll need:

- Four sturdy chairs
- A sheet and some blankets
- Comfy decorations (pillows, duvets and blankets)
- Heavy books
- Decorations to make the den your own (how about some string lights and pegs)

How to build your den:

1. Choose somewhere to build your den, how about against a wall or the back of the sofa?
2. Place a chair, facing inwards, on each corner of the den and place blankets over the chair backs.
3. Drape a sheet over the top to make the roof and put some books on the chair seats to hold it in place.
4. Put a blanket on the floor and arrange cushions or pillows around the sides to make it nice and cosy.
5. Add decorations to make it your own, such as string lights held in place by pegs.

Your den is now ready. Get in and make memories reading stories and having fun.
