

Life Size Drawings

This is great fun for kids to do at home as they get creative - and it's a really easy activity too!

Instructions

1. stick loads of A4 paper together and place it on the floor.
2. encourage your kids to lie down on the paper and outline their body with a pen.
3. let your kids get creative by colouring in the outline, adding accessories (it's a great way to use craft materials or pieces of old material, stickers, etc.)
