

Housebound Treasure Hunt

Create a Treasure Hunt throughout your house for the little ones to enjoy and find little treats on their journey.

Instructions

1. hide small items (for example chocolate coins).
2. create a map of your home and mark each piece of hidden treasure on the map.
3. give the map to your little ones and let them have fun finding the treasure.

Once they've found all the treasure, why not get them to organise their own hunt for you to do? They can draw their own map or come up with their own cryptic questions to send you on a great search.
